Art Unit: 3738

Newly submitted claim 57 is directed to an invention that is independent or distinct from the invention originally claimed for the following reasons: Claim 57 represents a combination relative to subcombination claim 43 and does not require the particulars of the subcombination claim such as the guide pin having at least one flat. The subcombination has separate utility such as positioning the hollow tube via means other than the drill tube and drill tube guide. Moreover, the required searches for the inventions are divergent.

Since applicant has received an action on the merits for the originally presented invention, this invention has been constructively elected by original presentation for prosecution on the merits. Accordingly, claim 57 is withdrawn from consideration as being directed to a non-elected invention (37 CFR 1.142(b); MPEP § 821.03).

Contrary to the Applicant's remarks, no terminal disclaimer has been filed.

The nonstatutory double patenting rejection is based on a judicially created doctrine grounded in public policy (a policy reflected in the statute) so as to prevent the unjustified or improper timewise extension of the "right to exclude" granted by a patent and to prevent possible harassment by multiple assignees (*In re Goodman*, 11 F.3d 1046, 29 USPQ2d 2010 (Fed. Cir. 1993); *In re Longi*, 759 F.2d 887, 225 USPQ 645 (Fed. Cir. 1985); *In re Van Ornum*, 686 F.2d 937, 214 USPQ 761 (CCPA 1982); *In re Vogel*, 422 F.2d 438, 164 USPQ 619 (CCPA 1970); and, *In re Thorington*, 418 F.2d 528, 163 USPQ 644 (CCPA 1969)).

A timely filed terminal disclaimer in compliance with 37 CFR 1.321(c) may be used to overcome an actual or provisional rejection based on a nonstatutory double patenting ground provided the conflicting application or patent is shown to be commonly owned with this application (37 CFR 1.130(b)).

Effective January 1, 1994, a registered attorney or agent of record may sign a terminal disclaimer. A terminal disclaimer signed by the assignee must fully comply with 37 CFR 3.73(b).

Claims 24, 49-52, and 54-56 are rejected under the judicially created doctrine of obviousness-type double patenting as being unpatentable over the claims of U.S. Patent No. 5,489,307. Although the conflicting claims are not identical, they are not patentably distinct from each other because nearly all of the instant limitations occur in or would have been inherent

from the patent claims. Regarding claim 24: patent claim 1, column 14, lines 59-61. Regarding claim 49: patent claim 20. Regarding claim 51, laparoscopic steps are found in patent claim 16. Regarding claim 54, marking the first and second locations would have been obvious in order to provide confirmation of the "desired first implant location" (patent claim 1: column 14, line 54) and the "desired second implant location" (patent claim 1: column 15, lines 1-2). Regarding claim 55: patent claims 12 and 18.

Claims 43 and 45-48 are allowed.

All claims are drawn to the same invention claimed in the application prior to the entry of the submission under 37 CFR 1.114 and could have been finally rejected on the grounds and art of record in the next Office action if they had been entered in the application prior to entry under 37 CFR 1.114. Accordingly, **THIS ACTION IS MADE FINAL** even though it is a first action after the filing of a request for continued examination and the submission under 37 CFR 1.114. Attention is directed to MPEP § 706.07(b). Applicant is reminded of the extension of time policy as set forth in 37 CFR 1.136(a).

A shortened statutory period for reply to this final action is set to expire **THREE MONTHS** from the mailing date of this action. In the event a first reply is filed within **TWO MONTHS** of the mailing date of this final action and the advisory action is not mailed until after the end of the **THREE-MONTH** shortened statutory period, then the shortened statutory period will expire on the date the advisory action is mailed, and any extension fee pursuant to 37 CFR 1.136(a) will be calculated from the mailing date of the advisory action. In no event, however, will the statutory period for reply expire later than **SIX MONTHS** from the mailing date of this final action.

Art Unit: 3738

A complete reply to the final rejection must include cancellation of the nonelected claim or other appropriate action (37 CFR 1.144; MPEP § 821.01).
